We are currently recruiting for a Senior Security Analyst.

20,000+ employees work across diverse healthcare settings including critical frontline roles at St Vincent's Health Australia. Our shared goal is outstanding care and we are looking for a Senior Security Analyst to join our Digital & Technology team to help make every employee successful in this.

In this role you will be responsible for actively monitoring, isolating and mitigating security risks which have the potential to impact the security of St Vincent's Infrastructure and Data.

Working closely with the Operational Security & Risk team and Vendors, key responsibilities include:

- Assessing and managing information risk and facilitates remediation of identified vulnerabilities for IT security and risk across the enterprise including St Vincent's network, systems and applications.
- Perform vulnerability/risk assessments and conduct regular security audits, across St Vincent's Digital Applications and Services.
- plans. • Perform assessments of the D&T security/risk posture within the D&T network, systems and software applications,

• Report on review findings and recommendations for corrective action, including countermeasures and contingency

- in addition to assessing risk arising from changes to existing or through the implementation new technologies.
- Use third party managed services SOC to troubleshoot security and network problems on a day-to-day basis. • Manage and maintain St Vincent's security tools, including the Vulnerability Management, Privileged Access
- Management and Security Information and Event Management systems.
- Serve as a technical security lead on projects for new application or infrastructure installations, that involve other D&T teams, the business and external vendors to ensure data security is built into system designs and configurations.

Selection criteria for this position include:

- 7-10 years IT security or information security experience with a proven ability to engage with Senior Management
- 5+ years' experience in administering IT security controls in an organisation.
- Demonstrated experience in implementing protective security management systems developed in accordance with standards
- Demonstrated experience in communicating complex IT security concepts with business and technical people, to ensure the organisation's information assets as secured to a level commensurate with the value of those assets

Whilst not essential, previous experience in IT discipline in health industry context will be highly desirable.

This position will be offered as full time, six month fixed term contract based out of our Sydney, Melbourne or Brisbane D&T offices.

For more information, please refer to the position description.

About St Vincent's

St Vincent's Health Australia is the largest diversified health care organisation within Australia's not for profit Catholic health care sector. St Vincent's is a clinical, research and education leader and operator of private hospitals, public hospitals and aged care services in New South Wales, Victoria and Queensland As a Catholic health and aged care service provider, our mission is to bring God's love to those in need through the healing ministry of Jesus, with a commitment to those who are poor and vulnerable.

As a valued employee of St Vincent's we can offer you:

- Tax saving salary packaging benefits through Smart Salary
- Access to health and wellbeing benefits including Fitness Passport, employee assistance program and discounted private health insurance
- Flexible working arrangements, including working from home • A friendly team environment with a great community care spirit.

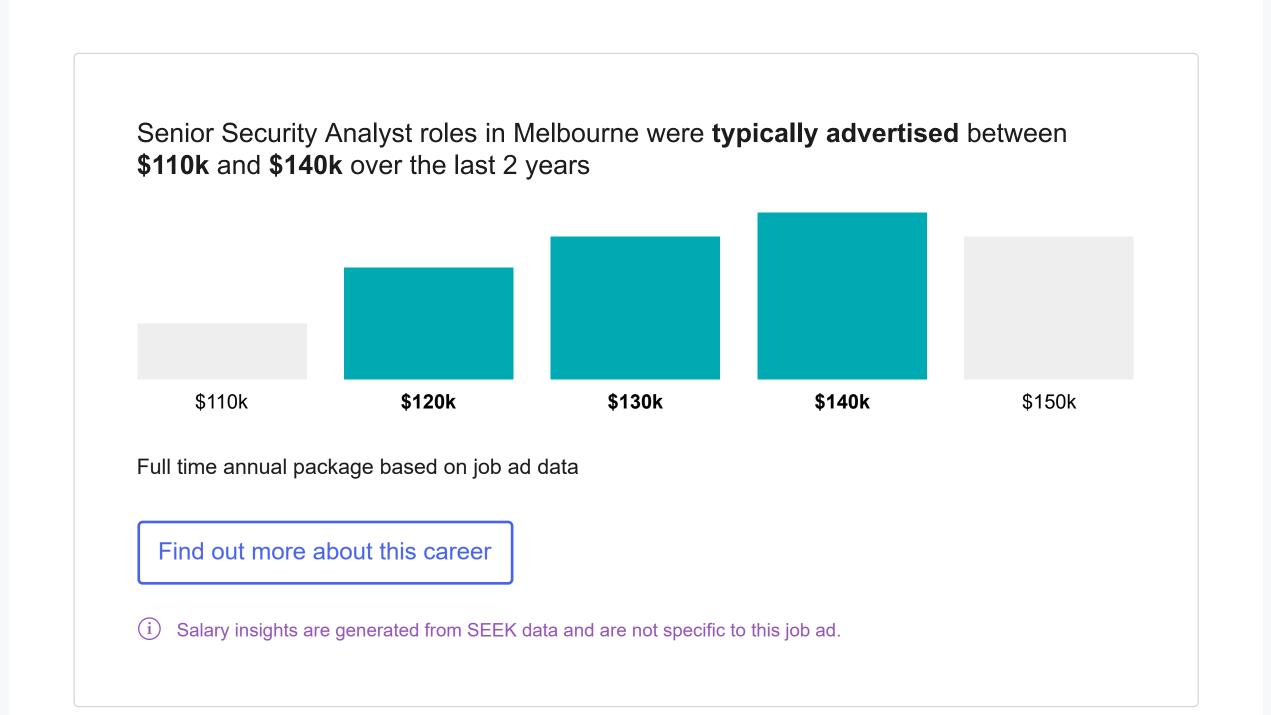

St Vincent's has a duty of care under work health and safety legislation to eliminate and/or control the risk of transmission of vaccine preventable diseases (VPD) in healthcare settings. You are therefore required to comply with local Public Health Orders and the SVHA Immunisation Policy, which, depending on the role you perform in the organisation will require you to undergo mandatory immunisations/vaccinations (including COVID-19 and flu vaccinations).

St Vincent's would strongly prefer this position to be filled by someone who is fully vaccinated against COVID-19. Please contact us if you would like to know more.
